

GilmanCare

A Clean You Can Count On Every Step of the Way

You may not know it, but it's important to have your carpet professionally cleaned every 12-18 months in order to ensure your carpet warranty remains valid.

Fortunately, Gilman Floors has you covered. We're now offering an annual comprehensive carpet cleaning service, called GilmanCare. With GilmanCare our professional cleaning technicians are certified to maintain your carpet warranty in accordance with the manufacturer's specifications.

GilmanCare features our rotary steam extraction system; the revolution in carpet cleaning. Its unique rotary motion cleans your carpets deeper, faster, and better than anything else out there. There's only one rotary system like this. And there's only one place you'll find it in all the Lowcountry, and that's at Gilman Floors.

Plus, our GilmanCare program gets even better if you have purchased your carpet from Gilman Floors. **We are giving Gilman Floors customers an exclusive offer! You get 25% off the regular price. And the cost is spread out over either 2 or 4 equal payments.**

Comprehensive Cleaning

- A Focused Cleaning every 9 months where we concentrate on the main traffic areas.
- A Deep Clean every 18 months where we move all furniture and clean the entire carpet. This takes away the dust, pet dander, and allergens that collect behind and under furniture.
- Four Emergency Stain Removal Calls. A great example – you're having a party and one of your guests accidentally spills a glass of red wine on your carpet. Don't worry. Party on, because with our GilmanCare program, we will come and clean that spill in 24 hours or less.

Gilman
CARPET CLEANING

THE REVOLUTION
IN CARPET CARE

One Good Turn Deserves Another.

With each turn our rotary steam extraction system is designed to clean like no other. Its unique rotating head cleans all sides of the carpet fiber, fluffing up and restoring the pile. Three steam jets aligned with five vacuum slots (that's right, five, not one like other carpet cleaners) make over 650 cleaning passes per minute. That's a whole lot of clean!

Deeper, Drier, and Safer for the Freshest Clean.

Break the cycle of going around and around trying to find a solution for your dirty and dingy carpets. Ok, we'll stop with all these bad "circular" puns, but we're only using them to make the point that our rotary steam extraction system cleans your carpets deeper, faster, and better than anything else out there.

The Gilman Guarantee

If the stain comes back, we'll come back - for no extra charge. Plus, it's our pledge that after the second cleaning if you're still not satisfied the amount you spent on cleaning will be applied towards new carpet or flooring at Gilman Floors.

Pet Odor & Stain Elimination

Gilman Floors happily offers a service where we can eliminate pet odor at the source. This powerful, self-neutralizing oxidizer not only destroys odor in carpet, but it attacks the stain as well. This service works on all organic-based stains to eradicate them forever!

7-Step Proprietary Cleaning Process

Pre-Vacuum

Dry soil, dander, and dust is lifted with our commercial vacuum prior to deep cleaning.

Pre-Spotting

Neutralize tough spots like pet stains and oily residues.

Pre-Spraying

Detergents made specifically for your carpet type are applied to allow soil to release from fiber.

Agitation

Carpet detergents are worked into fiber to allow for stain and soil release prior to rinse stage.

Rotary Extraction

Soil is extracted during this rinse and deodorization phase with our exclusive Revolutionary Rotary Steam method.

Re-Application

Re-application of Soil and Stain Repellant Treatment such as Scotchgard (if necessary).

Finishing

Carpet is groomed to assist with drying and to create a neat, footprint-free appearance.
